

## AMELIA & MICHAEL

**DIRECTOR** Daniel Cormack

*Buffy's* Anthony Stewart Head takes the lead in 'Amelia & Michael', a short from Daniel Cormack detailing the brittle lives of an unfaithful middle-aged couple. Despite the sombre subject matter, there's a strange comfort to be found in the final minute of the film in which the human capacity for — and need of — comfort against all the odds shines through. This short is beautifully shot, gently taking its time to unfold, and the presence of professional actors like stage and screen veteran Head really raises the bar a notch: on this evidence, Cormack is a young director to watch.
